Governor Wants a Rochester Man on His Ticket for Attorney-General.

Leaders Up-State.

Gov. Whitman has become convinced that he will be opposed for the nomination for Governor in the Republican primaries by Attorney-General Merton E. Lewis of Rochester. After his arrival for the nomination for Attor-

candidacy of Harold El Hinman of the William Barnes machine in Albany which was announced yesterday. Mr. Hinman, who is first deputy under the Attorney-General, will ally himself with the ant-Whitman ticket, whether or not it is headed by Mr. Lewis.

Mr. Lewis was at the Murray Hill Hotel all day yesterday. He declared, however, that he had spent the time conferring with his deputies in the local effice over State matters. He took an

Lewis Will Confer With Leaders After consulting with Mr. Aldridge.

Mr. Lewis will confer with other anti-Whitman men before reaching a frail decision as to whether or not he will run in the primaries. Mr. Lewis expects to unnounce his position next week. The cossibility that he would head the fight gainst the Governor has galvanised every anti-Whitman man in the State into action, and from all sides he has been receiving assurances of support. One up-State Republican, who asked that his name and county be withheld told Mr. Lewis that the Republicans in his neck of the woods were "all ready to run out on the Governor as soon as the

Deputy Wanamaker Installs New Plan to Educate Young Men to Go on Force.

ENRIGHT ISSUES ORDER

Will Improve Reserves, Give Candidates Better Chance and Save City Money.

Rodman Wanamaker, Special Deputy Police Commissioner in charge of the Police Reserves, is perfecting a plan whereby the city will get better policemen at less expense and loss in time, the police candidates will get a uniformly square deal and the so-called civil service schools will lose much patronage. The plan is for the Police Department

to train young men in the art of policing. Commissioner Enright advanced the the establishment in the Police Reserve
of a police training school for young men
between the ages of 18 and 28 years
"who desire to become members of the
police force of the city of New York
and who possess the necessary mental
and physical qualifications." Police surna are directed to examine candidates "for the purpose of determining whether their physical condition is or can be built up to the standard requirement

of the Municipal Civil Service Commis-sion." The order continues: "Members of the corps will attend members of the corps will attend training school in the evening as directed from time to time until they are pro-ficient in the proper performance of all the duties of policemen, and any mem-ber who fails to make reasonable prog-ress will be dropped from the corps. The training will be the same as that given

"When trained, members of the polic training corps will be mustered into the police reserve, ready and equipped for active service, or to fill vacancies in

the regular police force.

"Precinct and district commanders will take prompt and adequate measures to secure eligible young men for the police training corps. Names, ages and addresses of applicants will be enrolled in precinct station houses.

Pointing out the advantages of the system both to city and candidate. Mr. Wanamaker says in a circular issue

way of the Police Training Corps would save the city three months service and falary for each man appointed to the police force, because the men would be trained before appointment and qualified to go on patrol when sworn in instead of attending the training school for three months under salary, as is now the practice. the practice.

The Federal Food Board is much concerned over the fact there is comparatively little demand for an abundant supply of rye flour which has found its way to the New York market. It is reported there are nearly 100,000 barrels of rye flour either in New York stores or on the way here. The board is anxious that the public use up this flour in order that wheat may be conserved.
